Predgovor

Izdanje „Bibliografija-2013.g.“ Kliničke bolnice „Merkur“ je prvi pokušaj sustavnog prikaza godišnje znanstveno-istraživačke produkcije akademskih zaposlenika bolnice. Nastala je kompilacijom podataka iz baze „Hrvatska znanstvena bibliografija - CROSBİ“, čiju klasifikaciju slijedi, i bibliografskih jedinica dostavljenih ljubaznošću naših autora.

Svjesna sam da će savjestan čitatelj naći mnogobrojne zamjerke ovom izdanju: od nedosljednosti u formatiranju bibliografskih jedinica, do izostanka publikacija koje u trenutku zaključivanja ovog izdanja nisu bile dostupne urednici. Stoga su sve primjedbe, nadopune, prijedlozi i ispravci dobro došli.

Međutim, nadam se da će čitateljska publika pri pregledu ove Bibliografije naći i dovoljan broj objektivnih dokaza o kvaliteti naše znanstveno-istraživačke djelatnosti, koja je neprijeporno jedan od ključnih čimbenika izvrsnosti po kojoj Klinička bolnica „Merkur“ želi biti prepoznata kako na domaćem, tako i na međunarodnom planu.

Preface

„Bibliography-2013“, issued by the Merkur University Hospital, is the first attempt to systematically overview annual scientific-research production of the Hospital's academic staff. Compiled data and classification system from the Croatian Scientific Bibliography – CROSBİ database, as well as references kindly provided by our authors were used for this edition.

I am aware that scrupulous reader might find many objections to this Bibliography, ranging from inconsistencies in the references formatting, to the absence of publications unavailable to the Editor at the closure of this edition. Hence, all the objections, supplements, suggestions and corrections are welcome.

However, I do hope that the reading audience, reviewing this Bibliography, will find enough objective evidence representing the quality of our scientific-research activity, that is undoubtedly the key-factor of excellence that Merkur University Hospital is striving to be recognized for, at both national and international level.

Zagreb, 21.5. 2014.
